

Inland Marine Marketing Solutions:

Welders & Field Service PACK

Mid-Continent offers a wide array of Inland Marine products with one of the lowest minimum premiums in the industry. In addition, Mid-Continent has the ability to write standalone Inland Marine business, which offers our customers more flexibility.

Specialized coverage for specialized equipment

Independent welders make significant financial investments into the tools and equipment they need to run their business successfully. Specifically, they require specialized equipment fastened to a customized bed. Mid-Continent's Mobile Welders and Field Services PACK can cover permanently mounted equipment like this. It can also fill the gap between where Automobile Coverage stops and where Inland Marine Coverage starts.

Key Highlights

- Customizable coverage
- Ideal for smaller, off-premises mobile welders, mechanics and similar field service exposures
- Covers a range of equipment such as various welding and service equipment, vehicle mounted equipment, parts and supplies and unscheduled tools or equipment
- Bailee's Liability Extension is available
- Fills the gap between Automobile and Inland Marine Coverage

Fill the gap between
Automobile and Inland
Marine Coverage
with Welders & Field
Service PACK
